# ADJUSTABLE ANGLE WRENCH

Adjustable Angle Wrench :

No tool kit is complete without a range of Super Adjustable Angle Wrenches. These drop forged wrenches, made of highest quality vanadium steel, tempered to exactness are among the world's finest. The wormwheel has a special pin fastening instead of the conventional slotted screw which makes it impossible to remove the wormwheel except by deliberate attempt. No amount of vibration will cause the pin to work free and fall out as in the case of the slotted screw. The multi-chrome plating is done automatically and is fully polished. These wrenches are representative of the highest art in tool making.

| NO. | SIZE mm | CAPACITY Kg/m | WEIGHT kg |
|---|---|---|---|
| MA 4 | 100 (4″) | 5.5 | 0.05 |
| MA 6 | 150 (6″) | 13.5 | 0.11 |
| MA 8 | 200 (8″) | 28.5 | 0.23 |
| MA10 | 250(10″) | 47.5 | 0.37 |
| MA12 | 300(12″) | 77.0 | 0.56 |
| MA15 | 375(15″) | 145.0 | 1.00 |
| MA18 | 450(18″) | 160.0 | 1.90 |

# SUPER HEAD SPANNER

Super Head Spanner :

The Super Head Spanner was designed as a production-line tool to facilitate the fast tightening of nuts in "hard to reach" places. With its special jaw the Head Spanner fits the nut regardless of the position of the nuts' side surfaces. The ring end is off-set.
